Success Story

Construction and Demolition Success—Just A Click Away

The Best Management Practices, Waste Reduction Construction and Demolition Debris - A Guide for Building, Construction and Environmental Professionals that was produced by the Iowa Waste Exchange with assistance provided by the Iowa Department of Economic Development's graphics team is now available online. You may download the free guide at the Iowa Waste Reduction Center's website at www.iwrc.org/downloads and click on *Best Management Practices, Waste Reduction Construction and Demolition Debris - A Guide for Building, Construction and Environmental Professionals*.

The manual was produced in conjunction with the highly successful 2008 Iowa Environmental Regulatory Workshops for the Construction & Demolition Industry and Building Code Officials, which despite winter challenges was held at six venues and attended by 382 participants across Iowa.

The guide is intended to lay the foundation for successful waste reduction initiatives for new construction, renovation and demolition projects. As more and more companies are searching for green alternatives in their approaches to debris management this manual offers step-by-step instructions, sample forms, salvage, construction, demolition markets and helpful checklists. It is our intent to keep the manual current. If you have an innovative idea or information that you believe should be included in future updates of this manual please email them to Shelly Codner at scodner@region12cog.org or Jan Loyson at jan.loyson@iowalifechanging.com. If you need additional waste reduction and recycling assistance, please contact your Area Resource Specialist.

Original support for the print version of *The Construction and Demolition Best Management Practices Manual* was funded by the Iowa Department of Natural Resources Pollution Prevention Services and the Iowa Department of Economic Development.

STILL AVAILABLE

400 used spa covers. Weigh about 6,000 pounds. Vinyl covering, EPS insulation. Could be used for insulation applications. Located in Carroll. Call Fred Kesten, 712-792-9914.

For additional information contact Shelly Codner. To view larger photos click on the photo icon above.

Mark Your Calendars

Midwest Composting School June 9 -11, 2008

The Midwest Composting School 2008 features an intensive three-day program that will train participants in the science of composting, handling multiple feedstocks, enhancing compost quality, compost sampling and analytical processes, environmental regulations, and understanding compost markets. The school focuses on a combination of hands-on training, lecture and discussion, facility operator panel discussions, and problem solving.

This three-day school will be held at Field Extension Education Laboratory (FEEL) of Iowa State University in Ames, IA from June 9 through June 11, 2008. Certificates will be provided to the participants upon successful completion of the school.

For questions about the school curriculum, please contact Kapil Arora, Extension Field Engineer, Iowa State University Extension, 220 H Avenue, Nevada, Iowa. Phone: (515) 382-6551. Fax: (515) 382-2696. Email: pbtiger@iastate.edu. For additional information visit www.aep.iastate.edu/compost/.

Call for Presentations

Iowa Recycling Association (IRA) and Iowa Society of Solid Waste Operations (ISOSWO) invite you to submit an abstract to present at the 2008 Iowa Recycling and Solid Waste Management Conference.

The Iowa Recycling and Solid Waste Management Conference and Trade Show is a premier event providing exceptional educational programs, networking, and trade show opportunities to recycling and solid waste management professionals from across the Midwest. The conference curriculum addresses a broad array of issues and provides a balanced program that meets the various skill and interest levels of the conference audience. For details regarding this call for presentations visit the conference website at www.iraisoswoconference.org.

SWAP DEADLINE - JULY 1, 2008

The Solid Waste Alternatives Program (SWAP) works to reduce the amount of solid waste generated and landfilled in Iowa. Through a competitive process, financial assistance is available for a variety of projects, including source reduction, recycling and education.

The program provides financial assistance in the form of forgivable loans, zero interest loans, and 3 percent interest loans. A 50 percent cost share is required through cash match and in-kind match. Projects are selected through a quarterly competitive process. Emphasis for selected projects is placed on tonnage avoided or reduced, sustainability and ability to replicate.

The next deadline is July 1, 2008. If you need assistance in writing or reviewing your application contact your Area Resource Specialist. For more information regarding SWAP contact Jennifer Reutzel, (515) 281.8672, Jennifer.Reutzel@dnr.iowa.gov or visit www.iowadnr.gov/waste/financial/financialswap.html.
